PROFILE

Computer Science graduate with strong analytical skills and hands-on experience in Python, AI/ML, and application validation. Seeking an entry-level role as a **Trainee Manual Tester** with exposure to functional and basic automation testing.

EXPERIENCE

SOFTWARE DEVELOPER, *Vinayan India Consulting, Delhi* May 2025 – Dec 2025

Developed Python automation pipelines and validated application workflows. Performed functional testing, test execution, and output verification to ensure system accuracy and reliability.

DATA SCIENCE INTERN, *CRIS (Indian Railways), Delhi* Jul 2024 – Sep 2024

Built ML models for demand forecasting. Performed data validation, functional checks, and accuracy testing on analytical outputs.

PROJECTS

AI Resume Shortlisting System: Developed a resume ranking system using ML and REST APIs. Created test cases, executed functional testing, and validated results.

RAG-Based AI Chatbot: Built an LLM-powered chatbot and tested responses, edge cases, and functional flow for accuracy.

Waste Classification System: Designed a CNN model (93% accuracy) and validated predictions across multiple test datasets.

EDUCATION

B.TECH IN COMPUTER SCIENCE & ENGINEERING 2021 – 2025

Sunder Deep Engineering College (AKTU), Ghaziabad

SKILLS

Software Testing: Manual Testing, Functional Testing, Smoke, Sanity, Regression Testing, Test Case Design, Test Execution, Defect Life Cycle, SDLC & STLC

Automation (Basic): Selenium Basics, Test Script Writing & Execution

Programming: Python, SQL, C++

Tools: JIRA (Basic), Git, VS Code, Jupyter, MS Excel

Databases: MySQL, MongoDB

Soft Skills: Communication, Interpersonal Skills, Analytical Thinking, Attention to Detail, Team Collaboration
